Voltaggio di serie - Standard voltage: 230v/1/50Hz • Classe climatica - Climatic class: MAX = (30°C - % U.R. 55)

# MARILYN

- Termodinamica R290 ad alta efficienza
- Telaio in alluminio anodizzato nero
- Porta con vetrocamera strutturale a bassa emissività, con vetri esterni temperati e serigrafati
- Versione cromatica standard: nero
- Interno interamente in acciaio AISI 304 inossidabile anticorrosione, con lavorazione al laser e finitura lucida a specchio
- Centralina touch screen con retroilluminazione ad alto contrasto. Funzioni termometro, comando dell'illuminazione e modalità ECO integrate
- Ampia maniglia "a scomparsa", integrata nella struttura lungo l'intera altezza della porta.
- Ruote gemellate pivotanti, di cui due con funzione freno
- Piedini regolabili di serie
- Serratura di serie

OPTIONAL POTENZIOMETRO: Temperatura di colore LED regolabile tra 3.000 K e 6.500 K

OPTIONAL: Sistema di controllo remoto (WiFi/Cloud)

OPTIONAL: Utilizzo della tecnologia INVERTER per migliorare le prestazioni delle vetrine

**INVERTER** : Ridotto consumo energetico, consumi ridotti fino a -45%

- High efficiency R290 thermodynamics
- Frame in black anodized aluminum
- Door with low emissivity structural glass, with tempered and silk-screened outside windows
- Standard color: black
- Interior made entirely of AISI 304 stainless steel, corrosion free, laser cut and mirror polished finish.
- Touch screen controller with high contrast backlight, features to adjust the thermometer, lighting control and integrated ECO mode
- Wide "hidden" handle, integrated on the full height of the door.
- Chrome stainless steel swivel wheels with and without brake
- Standard adjustable feet
- Lock as standard

OPTIONAL POTENTIOMETER: Adjustable LED color temperature between 3.000 K and 6.500 K

OPTIONAL: Remote control system (WiFi/Cloud)

OPTIONAL: Using INVERTER technology to improve showcases performance

**INVERTER** : Reduced energy consumption, reduced up to -45%

# DIVA

- Termodinamica R290 ad alta efficienza
- Temperatura di colore LED a scelta: 3.000 K o 6.500 K
- Telaio interamente in alluminio a finitura lucida a specchio, con ampia maniglia mono-blocco incorporata in acciaio inox su tutta la lunghezza della porta
- Griglie aerazione e fondo interno in acciaio inox rifinito al laser
- Doppia vetrocamera a tre lastre su ogni lato, intelaiata e sigillata, con isolamento ad aria secca, per le massime performance di coibentazione
- Centralina touch-screen retroilluminata bianca LED con funzione di risparmio energetico
- Robuste ruote girevoli, con e senza freno

OPTIONAL POTENZIOMETRO: Temperatura di colore LED regolabile tra 3.000 K e 6.500 K  
 OPTIONAL: Sistema di controllo remoto (WiFi/Cloud)  
 OPTIONAL: Utilizzo della tecnologia INVERTER per migliorare le prestazioni delle vetrine

**INVERTER** : Ridotto consumo energetico, consumi ridotti fino a -45%

- Thermodynamics R290
- Color LED temperature at the customer's choice: 3,000 K or 6,500 K
- Modern and elegant frame entirely in mirror polished aluminum, with large embedded stainless steel handle, along the entire door length
- Ventilation grids and internal bottom in stainless steel, laser refinished
- Double glazing three glass-sheets on each side, framed and sealed, with a dry air insulation, for maximum insulation performance
- Touch screen control unit, white LED backlight with energy saving function
- Swivel wheels, with and without brakes as standard

OPTIONAL POTENTIOMETER: Adjustable LED color temperature between 3.000 K and 6.500 K  
 OPTIONAL: Remote control system (WiFi/Cloud)  
 OPTIONAL: Using INVERTER technology to improve showcases performance

**INVERTER** : Reduced energy consumption, reduced up to -45%

## OPTIONAL: DRINK VERSION

Solo per DIVA Q / Only for DIVA Q:  
 Supporto per versione acqua / Support for water version / Support pour la version eau /  
 Halterung fuer Wasserversion / Soporte para versión agua

All'estimazione studiata per chi necessita di una vetrina robusta, capace di sostenere carichi pesanti, senza però dover rinunciare allo stile ed eleganza Tecfrigo.  
 Struttura interna a 4 sostegni rinforzati in alluminio anodizzato con supporti ripiani ad alto resistenziale.  
 I ripiani quadrati sono stati realizzati con vetri di 4+4 mm stratificati, antisfondamento con sgancio rapido dei ripiani tramite ventose ammortizzanti di sicurezza.

It has been studied for those who need a solid display cabinet, able to support heavy loads, without sacrificing Tecfrigo style and elegance.  
 The inner structure is made with 4 anodized aluminium reinforced supports and with high-resistance shelves supports.  
 The squared shelves are manufactured with laminated and shatterproof 4+4 mm glasses, with rapid shelves unfasten by means of safety cushioning suckers.

## OPTIONAL: DIVA-I

Versione da incasso con fianchi e schiena in laminato plastico e lamiera d'acciaio con speciale trattamento anticorrosione e interno a specchio / Built-in installation version with side and back in plastic laminate and sheet steel with special anti-corrosion treatment and mirror-like interior

Centralina elettronica touch screen con comandi incorporati  
 Electronic touch screen control unit with built-in commands

Ampia maniglia in acciaio inox su tutta la lunghezza porta  
 Large stainless steel handle along the entire door length

GBT  
 Vetro triplo basso emissivo  
 Low-emissivity triple-glazed

ALTRE VERSIONI/OTHER VERSIONS  
 Vetro triplo anti-condensa  
 Triple anti-condensation glass

- Piedini livellanti regolabili in acciaio inox  
 - Ruote girevoli con e senza freno, cromate inox  
 - Adjustable stainless steel leveling feet  
 - Chrome stainless swivel castors with and without brake

ESPOSITORE VERTICALE CON STRUTTURA INTERNA ROTANTE A 30 RIPIANI A "SPICCHIO" PER PASTICCERIA  
 VERTICAL DISPLAY WITH ROTATING INTERNAL STRUCTURE: 30 "WEDGE" SHELVES FOR PASTRY

Serie di vetrine refrigerate per pasticceria e gelateria, dotata di un'esposizione unica ed innovativa.

Grazie alla sua struttura interna composta da 30 ripiani rotanti a spicchi, realizzati in plexiglass ad alta trasparenza con raggio di 26 cm, permette una visione panoramica dei prodotti esposti.

- Telaio interamente in alluminio a finitura lucida a specchio, con comoda maniglia in tinta
- Griglie aerazione e fondo interno in acciaio inox rifinito al laser
- Doppia vetrocamera a tre lastre su ogni lato, intelaiata e sigillata, con isolamento ad aria secca, per le massime performance di coibentazione
- Possibilità di muovere i ripiani per permettere l'inserimento di torte più alte di 15cm
- Refrigerazione ventilata e sbrinatorio automatico con evaporazione automatica acqua
- Illuminazione a doppia fila di LED ad elevata efficienza luminosa e risparmio energetico
- Centralina touch-screen retroilluminata bianca LED con funzione di risparmio energetico avanzata
- Robuste ruote girevoli, con e senza freno cromate inox

OPTIONAL CONNETTIVITÀ:

- Connessione Wi-Fi
- Controllo e connettività CLOUD da PC/Tablet/Smartphone
- Notifica degli eventi tramite mail
- Temperatura di conservazione in tempo reale
- Modifica del setpoint
- Grafici storici e realtime
- Consultazione della lista eventi
- Accesso ai manuali d'uso
- Mail con report grafico settimanale in pdf

OPTIONAL: Utilizzo della tecnologia INVERTER per migliorare le prestazioni delle vetrine

 : Ridotto consumo energetico, consumi ridotti fino a -45%

Refrigerated upright display, ideal for ice-cream and pastry; it boasts a unique and innovative exhibition ability.

Thanks to its internal structure with 30 wedge rotating shelves, made in high-transparence plexiglass with a 26 cm radius, Melanie is able to give a panoramic view of the displayed products.

- Frame entirely in mirror polished aluminum, with practical same color handle
- Ventilation grids and internal bottom in stainless steel, laser refinished
- Double glazing three glass-sheets on each side, framed and sealed, with a dry air insulation, for maximum insulation performance
- Possibility to move shelves to allow the placing of cakes higher than 15cm
- Ventilated refrigeration with automatic defrosting and automatic evaporation of defrost water
- Double LED stripes lighting with high luminous efficiency and energy saving
- Touch screen control unit, white LED backlight with advanced energy saving function
- Stainless steel swivel wheels, with and without brakes as standard

CONNECTION OPTIONAL:

- Wi-Fi connection
- CLOUD control and connection from PC / Tablet / Smartphone:
- Events notification by mail
- Real-time info about storage temperature
- Set point modification
- Historical and real-time charts
- Events list consultation
- Access to user manuals
- E-mail with weekly chart report in PDF format

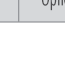

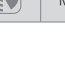

OPTIONAL: Using INVERTER technology to improve showcases performance

 : Reduced energy consumption, reduced up to -45%

La linea Snelle vanta in tutte le sue versioni un telaio interamente in alluminio anodizzato estruso, disponibile nei colori standard argento e bronzo, o personalizzabile RAL.  
 Griglie di ventilazione in acciaio inossidabile AISI 304.  
 Doppia vetrocamera a tre lastre su ogni lato, intelaiata e sigillata, con isolamento ad aria secca, per le massime performance di coibentazione.  
 Illuminazione a LED ad elevata efficienza luminosa e risparmio energetico.  
 Centralina soft-touch con comandi incorporati.  
 Ruote girevoli con e senza freno.

**OPTIONAL:**  
 Serratura di sicurezza  
 Porta con cerniere su lato sinistro  
 Vetri a specchio posteriori e/o laterali  
 Vetrocamere con valvole di altitudine (+900mt slm)  
 Condensatore ad H2O  
 Colori RAL e finiture legno  
 Kit ruote con freno  
 Sbrinamento automatico a gas caldo

*The Snelle line boasts in all its versions a frame entirely in extruded anodised aluminum, available in the standard colors silver and bronze, or customizable RAL.  
 Ventilation grids in AISI 304 stainless steel.  
 Double glazing with three sheets on each side, framed and sealed, with dry air insulation, for maximum insulation performance.  
 LED lighting with high luminous efficiency and energy saving.  
 Soft-touch control unit with built-in commands.  
 Swivel castors with and without brake.*

**OPTIONAL:**  
 Security lock  
 Door with hinges on the left side  
 back and/or side mirrored glasses  
 double-glazing with altitude valves (+ 900mt above sea level)  
 H2O condenser  
 RAL colors and wood finishing  
 Wheel kit with brake  
 Automatic hot gas defrosting

# MUSA 120

MUSA 120 R

- Termodinamica R290
- Centralina soft-touch retroilluminata bianca LED con funzione di risparmio energetico avanzata
- Temperatura di colore LED a scelta: 3,000 K o 6,500 K
- 4 ripiani rotanti estraibili
- Telaio interamente in alluminio anodizzato nero
- Doppia vetrocamera a tre lastre su ogni lato, intelaiata e sigillata, con isolamento ad aria secca, per le massime performance di coibentazione
- Ampia maniglia monoblocco incorporata in acciaio inox

- Thermodynamics R290
- White LED backlit soft-touch control unit with advanced saving function energy
- Color LED temperature at the customer's choice: 3,000 K or 6,500 K
- No. 4 removable rotating crystal plates
- Frame in black anodized aluminum
- Double glazing three glass-sheets on each side, framed and sealed, with a dry air insulation, for maximum insulation performance
- Large embedded stainless-steel handle

CARISMA 6+6

- Riserva di stoccaggio sotto la superficie espositiva se si utilizzano vaschette h120mm
- Struttura esterna in lamiera verniciata bianca e castello vetri fisso
- Struttura interna in lamiera verniciata grigia e acciaio
- Chiusura a ribaltina trasparente lato operatore
- Griglia frontale di ventilazione forata in tinta bianca con cornice alluminio
- Centralina elettronica con display e cruscotto comandi sul retro
- 4 ruote girevoli di serie

ACCESSORI:

- Lavaporzionatore esterno con rubinetto
- Portaconi
- Vaschette gelato

- Storage area underneath the exposing surface with H120mm basins only
- External structure in painted white sheet and fixed glass superstructure
- Internal structure in painted grey sheet and stainless steel
- Transparent lift up rear door operator side
- White perforated front ventilation grid with aluminum frame
- Electronic control unit with display and control panel on the back
- 4 swivel castors as standard

ACCESSORIES:

- Outside ice-cream wash dosing with tap
- Outside cone holder
- Ice cream basins

## CICLO DI ABBATTIMENTO RAPIDO • BLAST CHILLERS • REFOIDISSEMENT RAPIDE • SCHNELLKÜHLUNG • CICLO DE ENFRIAMIENTO

**+70°C**  
**+3°C**  
**90' min.**

**Abbattimento rapido**  
**+70°C > +3°C**

Grazie al ciclo di abbattimento rapido la temperatura del prodotto scende da +70°C a +3°C in 90 minuti. Il passaggio tra i +65°C ed i +10°C (clima ideale per la proliferazione dei batteri), è così veloce da impedire qualsiasi generazione.

Il cibo abbattuto rimane quindi sicuro e conservabile per circa 8 giorni.

**Blast Chillers**  
**+70°C > +3°C**

Thanks to the Blast Chilling cycle, the product temperature drops from +70°C to +3°C in 90 minutes. The transition between +65°C and +10°C (ideal climate for the proliferation of bacteria), is so fast that any bacterial generation can be prevented.

The blast frozen food remains safe and preservable for 8 days.

**Refoidissement Rapide**  
**+70°C > +3°C**

Grâce au cycle de refroidissement rapide, baisse de la température du produit de +70°C à +3°C en 90 minutes. La transition entre +65°C et +10°C (climat idéal pour la prolifération des bactéries), est très rapide afin d'éviter toute prolifération de bactérie.

Le plan alimentaire demeure sûr et conservé pendant 8 jours.

**Schnellkühlung**  
**+70°C > +3°C**

Dank des Schnellkühlzyklus sinkt die Temperatur von +70°C auf +3°C innerhalb von max 90 Minuten ab. Der Übergang zwischen +65°C und +10°C (Idealtemperatur für die Entwicklung von Bakterienflora) ist so schnell, dass jede Entwicklung und Vermehrung verhindert wird.

Die schnellgekühlten Lebensmittel bleiben daher für ca. 8 Tagen sicher und haltbar.

## CICLO DI CONGELAMENTO • FREEZING CYCLE • CYCLE DE CONGELATION • GEFRIERZYKLUS • CICLO DE CONGELACIÓN

**+70°C**  
**-18°C**  
**240' min.**

**Surgelazione Rapida**  
**+70°C > -18°C**

Il massimo della conservazione si ottiene grazie alla produzione rapida di freddo tale da consentire la produzione di microcristalli che preservano ottimamente le cellule del prodotto. La surgelazione rapida fa scendere la temperatura da +70°C a -18°C in un tempo massimo di 240 minuti.

Il cibo rapidamente surgelato rimane conservabile per mesi.

**Shock Freezing**  
**+70°C > -18°C**

The maximum storage is achieved through the rapid production of cold to allow the production of microcrystals that optimally preserve the cells of the product. The shock freezing drops the temperature from +70°C to -18°C in a maximum time of 240 minutes.

The food is quickly frozen and therefore preservable for months.

**Surgelation Rapide**  
**+70°C > -18°C**

La conservation optimale est atteinte grâce à la production rapide de froid qui permet de préserver les cellules du produit. La surgelation rapide fait descendre la température de +70°C à -18°C en un temps maximum de 240 minutes.

La nourriture est rapidement congelée, puis rangée pendant des mois.

**Schockfrostern**  
**+70°C > -18°C**

Die höchste Konservierung wird durch dem raschen Schockfrostenszyklus, erreicht. Damit werden Eis-Mikrokristalle gebildet, welche die Lebensmittelzellen optimal schützen. Aufgrund des Schockfrostesprozesses, sinkt die Temperatur von +70°C auf -18°C innerhalb von max 240 Minuten ab.

Die schockgefrosteten Lebensmittel bleiben daher für Monate haltbar.

Il sistema di guide e cremagliere reggi griglie o vassoi è asportabile manualmente. Tale sistema è bivalente perché si possono usare griglie o vassoi GN 1/1 oppure griglie o vassoi 60x40. La nostra gamma di abbattitori / congelatori garantisce i seguenti servizi:

a) ciclo di abbattimento +70 °C → +3°C:  
da una temperatura di +70 °C si raggiunge una temperatura di +3 °C al cuore del prodotto in un tempo di circa 90'.

b) ciclo di congelamento rapido: da una temperatura di +70 °C si raggiunge una temperatura di -18 °C al cuore del prodotto in un tempo di circa 240'.

c) attivazione della fase di conservazione alla fine del ciclo di abbattimento o congelamento.

The system of guides and racks to take grills and trays can be manually taken out. It is a bivalent system because you can use grills or trays GN 1/1, or grills or trays 60x40. Our range of Coolers / freezers guarantees the following services:

a) Cooling cycle +70°C → +3°C: It takes about 90 minutes for the temperature of the centre of the product to drop from +70°C to +3°C.

b) Rapid freezing cycle: It takes about 240 minutes for the temperature at the centre of the product to drop from +70°C to -18°C.

c) Activation of the preservation stage At the end of the cooling and freezing cycles.

Le système de glissières et de crémaillères de soutien des grilles ou des plateaux peut être retiré de façon manuelle. Ce système est donc ambivalent puisqu'il permet d'utiliser aussi bien des grilles que des plateaux. GN 1/1 ou alors des grilles ou des plateaux 60 par 40. Notre gamme de réfrigérants / congélateurs garantie les services suivants:

a) Cycle de refroidissement de +70°C à +3°C: Partant d'une température de +70°C, on descend à une température de +3°C au coeur du produit, en un temps supérieur ou égal à 90 minutes.

b) Cycle de congélation rapide: Partant d'une température de +70°C, on descend à une température de -18°C au coeur du produit, en un temps supérieur ou égal à 240 minutes.

c) La conservation sera activée à la fin du cycle de congélation rapide.

Das System der Führungen und Gitter- oder Tablethaltegestänge lässt sich manuell abnehmen. Dieses System bietet doppelseitige Anwendung, sowohl für Gitter, und für Tablett GN 1/1, als auch für Gitter und Tablett 60x40. Unser Sortiment von Schockfroster garantiert folgende Dienstleistungen:

a) Temperaturdämpfungszyklus +70°C → +3°C: on der Temperatur +70°C erreicht man die Temperatur +3°C im Zentrum des Produkts innerhalb von > 90'.

b) Zyklus des Schnelleinfrierens: Von der Temperatur +70°C erreicht man die Temperatur -18°C im Zentrum des Produkts innerhalb von > 240'.

c) Aktivierung der Konservierungsphase: am Ende des Temperaturdämpfungs- oder Gefrierzyklusses.

El sistema de guías y cremalleras portaparillas o portabandejas puede desmontarse manualmente. Dicho sistema es ambivalente, ya que pueden usarse parillas o bandejas GN 1/1 o parillas o bandejas 60x40. Nuestra gama de enfriadores/ congeladores garantiza los siguientes servicios:

a) Ciclo de enfriamiento +70 °C → +3°C: a partir de una temperatura de +70 °C se alcanza una temperatura de +3 °C en la parte central del producto en un tiempo de > 90'.

b) Ciclo de congelación rápida: a partir de una temperatura de +70 °C se alcanza una temperatura de -18 °C en la parte central del producto en un tiempo de > 240'.

c) Activación de la fase de conservación: al final del ciclo de enfriamiento o congelación.
