

TEMPERATURE

- 8-9°C Vini bianchi leggeri e vini frizzanti, ad esempio, vini bianchi dolci da dessert
- 9-12°C Fino Sherry
- 10-11°C Vini bianchi pieni e frizzanti, come Champagne, Cremant e Cava
- 12-13°C Vini bianchi corposi, come Chardonnays, Bourgogne champagne d'annata, così come vini da dessert quali il Sauternes e l'Eiswein
- 14°C Porto
- 14-15°C Vini rossi giovani chiari come, Beaujolais e Pinot Nero
- 16-17°C Giovani e promettenti vini rossi come, Bourgogne, Saint Emilion, Pomerol, Chianti e Barbaresco
- 18-19°C Vini rossi corposi e maturi come, Rhône, Bor deaux Grand Cru, Barolo e Rioja Gran Reserva

- 8-9°C *Light white and sparkling wines e.g. sweet white dessert wines*
- 9-12°C *Fino Sherry*
- 10-11°C *Heavy white and sparkling wines e.g. Champagne, Cremant and Cava*
- 12-13°C *Full-bodied white wine e.g. Chardonnay, Bourgogne and vintage champagnes, as well as dessert wines such as Sauterne and Eiswein*
- 14°C *Port*
- 14-15°C *Light young red wines e.g. Beaujolais and ordinary Pinot Noir*
- 16-17°C *Young complex red wines e.g. Bourgogne, Saint Emilion, Pomerol, Chianti and Barbaresco*
- 18-19°C *Heavy, full-bodied and mature red wines e.g. Rhône wines, Bor deaux Grand Cru Classé, Barolo and Rioja Gran Reserva*

FILTRO A CARBONE: Dispositivo interno a carboni attivi che elimina i cattivi odori.
CHARCOAL FILTER: Internal filters with active carbons to avoid the bad smells.

Cantine frigo multizona

La serie Wine di cantine frigo multizona, è la preferita dai clienti per la capacità di soddisfare ogni esigenza di immagazzinamento di vino.

Una discreta porta vetro fumè con filtro UV, protegge il vino dai raggi del sole. Il compressore a basse vibrazioni ed i ripiani regolabili in legno assicurano che il vino venga conservato correttamente e indisturbato dal funzionamento della vetrina stessa. Nel complesso, la serie Wine, garantisce un risparmio energetico e una soluzione rispettosa dell'ambiente.

Multizone wine cabinets

The Wine series of MultiZone wine cabinets, is a customer favorite that honors every requirement for ideal storage of wine.

A discreet, smoked glass door with UV filter protects wine from rays of the sun. The low vibration compressor and adjustable wooden shelves ensure that wine is stored correctly and undisturbed by cabinet operation. Overall, the Wine series, ensures energy-saving and environmentally friendly solution.

Le 5 regole importanti per la conservazione

Il vino è un prodotto vivo e sensibile che richiede una delicata conservazione per salvaguardare le migliori condizioni per la sua maturazione ed invecchiamento.

TEMPERATURA: La temperatura ideale di conservazione del vino è circa 10-14°C, che dovrebbe essere costante.

UMIDITÀ: Un livello di umidità compreso tra il 50-75% è essenziale per mantenere la tenuta del tappo di sughero, e quindi la sua efficienza a mantenere l'aria fuori dalla bottiglia.

OSCURITÀ: La bottiglia non offre alcuna protezione contro i raggi diretti del sole, ed in particolare contro la luce ultravioletta che può essere dannosa per il vino. Di conseguenza, il vino deve essere conservato al buio e protetto in modo sicuro contro i raggi UV.

VIBRAZIONI: Se il vino è esposto a ripetute vibrazioni, queste disturbano lo sviluppo biochimico del vino. Le vibrazioni sono spesso il motivo per cui alcuni dei migliori e più raffinati vini non riescono a raggiungere il loro gusto ottimale.

VENTILAZIONE: Ventilazione e circolazione continua dell'aria sono di fondamentale importanza per evitare la formazione di odori sgradevoli.

The 5 important rules for storage

Wine is a living and sensitive product which demands gentle storage to safeguard the best conditions for its maturation and development.

TEMPERATURE: The ideal storage temperature for wine is about 10-14°C which should be constant.

AIR HUMIDITY: A humidity level of between 50-75% is essential to maintain the cork's sealing effect, and thereby its efficiency at keeping air out of the bottle.

DARKNESS: The bottle offers no protection against direct sunlight, and ultraviolet light in particular can be harmful to wine.

Accordingly, wine should be stored in darkness safely protected against UV radiation.

VIBRATION: If wine is exposed to repeated vibration, it will disrupt the wine's biochemical development. Vibrations are often the reason why some of the best and finest wines fail to reach their optimal taste.

VENTILATION: Ventilation and the continuous circulation of air are fundamentally important to avoid the development of unpleasant odours.

FILTRO A CARBONE: Dispositivo interno a carboni attivi che elimina i cattivi odori.
CHARCOAL FILTER: Internal filters with active carbons to avoid the bad smells.

Serie WINE FG: distintivo design con vetro nero

L'intramontabile vetro nero anteriore rende la serie Wine FG elegante e discreta anche quando in versione da incasso.

Il basamento inferiore è anch'esso rivestito da vetro nero, rendendo l'intero fronte della vetrina molto elegante. Sui modelli Wine 185 FG, l'apertura della porta è facilitata dalla maniglia integrata.

Le vetrine refrigerate per bibite Drink 360 FG sono costruite in modo da poter essere affiancate ai modelli Wine 185 FG, creando così una serie sbalorditiva per esporre qualsiasi bevanda. È disponibile un kit unione su misura, per bloccare le vetrine quando sono affiancate. Il kit unione fornisce la distanza necessaria per garantire l'accesso alla maniglia integrata, è inoltre presente una guarnizione di finitura tra le due vetrine.

WINE FG series: distinct, black-glass design

The timeless Black-Glass front makes the Wine FG series look elegant and discreet when integrated into a wall. Even the socket is covered by Black-Glass making the entire front very stylish. The door opening is made easy by pulling the integrated doorframe handle on Wine 185 FG.

Drink 360 FG beverage display cooler is built to match in a side-by-side solution with Wine 185 FG making a stunning set to display any drink. A tailor made joining kit is available to fix the cabinets when placed side-by-side. The joining kit provides the necessary distance between each cabinet to ensure access to the integrated doorframe handle and there is a gasket to join between the cabinets to finish nicely.

La nuova vetrina ventilata WINE 185 FG BRUT, è ideale per l'immagazzinamento delle bottiglie di vino bianco. Le sue linee eleganti permettono l'utilizzo in una vasta gamma di applicazioni del settore alberghiero e della ristorazione.

Efficiente illuminazione LED
L'illuminazione a LED crea una grande visibilità dei prodotti immagazzinati. In combinazione con il refrigerante R600a questa vetrina rappresenta una delle migliori proposte ad alta efficienza energetica presenti sul mercato.

Esclusivo design interamente in vetro.
Compressore a bassa vibrazione.

The new ventilated cooler, WINE 185 FG BRUT, is the perfect way to store white wine bottles. Its elegant design makes it suitable for a wide range of applications in hotel and restaurant sector.

Efficient LED lighting
The LED lighting allows a great visibility of products stored. Combined with refrigerant R600a, it currently represents one of the most energy-efficient units available on the market.

Exclusive full-glass design.
Low vibration compressor.

MARILYN WINE

ESPOSITORE VERTICALE CON INNOVATIVA STRUTTURA PER BOTTIGLIE DI VINO
 VERTICAL DISPLAY WITH INNOVATIVE STRUCTURE FOR WINE BOTTLES

MARILYN 650 WINE

**BUILT-IN &
 FREE STANDING**

A RICHIESTA / ON DEMAND

Disponibile in versione SP senza pannelli, da incasso / Available without panels, SP built-in version / Disponible en version SP sans panneaux, version intégrée / Verfügbar in Version SP ohne Platten, Einbau-Version / Disponible en version SP sin paneles

OPTIONAL
 Temperatura di colore LED regola-
 bile tra 3.000 K e 6.500 K
 Adjustable LED color temperature
 between 3.000 K and 6.500 K

Colore standard Standard color		Colori optional Optional colors
COD. 13	COD. 17	COD. 34

- Capacità massima 650 litri e 114 bottiglie di vino da 0,75 cl
- Temperatura regolabile +4/+18°C
- Termodinamica R290 ad alta efficienza
- OPTIONAL: Temperatura di colore LED regolabile tra 3.000 K e 6.500 K
- Elegante telaio in alluminio anodizzato nero
- Porta con vetrocamera strutturale a bassa emissività, con vetri esterni temperati e serigrafati
- Versione cromatica standard: nero
- Interno interamente in acciaio AISI 304 inossidabile anticorrosione, con lavorazione al laser e finitura lucida a specchio
- Centralina touch screen con retroilluminazione ad alto contrasto. Funzioni termometro, comando dell'illuminazione e modalità ECO integrate
- Elegante ed ampia maniglia "a scomparsa", integrata nella struttura lungo l'intera altezza della porta.
- Ruote gemellate pivotanti, di cui due con funzione freno
- Serratura di serie

- Maximum Capacity 650 liters and 114 wine bottles 0,75 cl
- Adjustable temperature + 4 / + 18 ° C
- High efficiency R290 thermodynamics
- OPTIONAL: Adjustable LED color temperature between 3.000 K and 6.500 K
- Elegant frame in black anodized aluminum
- Door with low emissivity structural glass, with tempered and silk-screened outside windows
- Standard color: black
- Interior made entirely of AISI 304 stainless steel, corrosion free, laser cut and mirror polished finish.
- Touch screen controller with high contrast backlight, features to adjust the thermometer, lighting control and integrated ECO mode
- Elegant and wide "hidden" handle, integrated on the full height of the door.
- Chrome stainless steel swivel wheels with and without brake
- Lock as standard
